

Group: Blue

Spice: *Thyme* to Get Rid of It - Title

Intro:

- 349,000. That's the number of estimated users in Louisiana. 18, 535 of those users were arrested, ranking Louisiana 5th in the nation. Here in Sulpher, just in 2011, this lethal drug was available over-the-counter.

Research:

- Teenage heart attacks
- Easier to overdose
- Affects CB1 receptors – can't function properly
- 2nd most used drug by high school students
- Affects Families – man killed his 5 kids

Recommendations:

- Starting support groups
- If caught with drugs, instead of suspension or expulsion, the student will have to stay after school to attend a support group

Personal Story:

- Tried to hide it
- Seizure
- Children found out
- They shunned their mom
- Bad family relationships
